SMARTFIX®

MIRROR SILICONE

APPLICATION

Mounting mirrors.
Glazing applications.
Sealing applications for marble, stone and other porous substrates

PROPERTIES

Non-corrosive to mirrors.
Resistant to temperature extremes.
Fast curing
Highly elastic
%100 Silicone, solventless.
Neutral cure. %100 Silicone, solventless.
Neutral cure.

Volume	Package
280 ml	25
310 ml	25

MULTIPURPOSE PU FOAM

APPLICATION

Fixing door and window frames.
Filling gaps, joints and cavities.
Insulating electrical outlets and water pipes.

PROPERTIES

Excellent adhesion & filling capacity
Excellent fixing capacity and stability.
Works with most building materials with the exception of polyethylene, teflon, silicone, oily/greasy surfaces and similar materials.
Water-proof & over paintable.

Volume	Package
300 ml	12
500 ml	12
750 ml	12

STRUCTURAL GLAZING SEALANT

APPLICATION

General Glazing and Curtain wall applications.
Sanitary and kitchen sealing.
Sealing around worktops and laminates.
Sanitary glass and glass to aluminium and metal sealing.
Cap glazing to metal, timber and PVC-u window frames.
Industrial uses and as a gasket sealant.
Aluminium and plastic gutter sealing.
Refrigeration and hygiene seal in non-food areas.

PROPERTIES

Structural Glazing Sealant is a cost effective neutral cure sealant that adheres to most smooth and non-porous materials. This product contains anti-fungal compound to prevent mould growth in areas of high humidity. Is mid to low modulus in nature.

Volume	Package
310 ml	25
600 ml	25

MDF KIT ACTIVATOR & GLUE

APPLICATION

It is particularly used for fixing and repairing wooden elements. Used in bonding of MDF, chip board, rubber, most plastics and leather etc.

PROPERTIES

High bonding strength.
High viscosity.
It can be used on vertical surfaces as it does not drip or slump.
It is particularly suited to bonding difficult substrates which have a porous or uneven nature since it increases bonding strength by preventing the adhesive from being absorbed by the surface.

Volume	Package
200 ml + 50gr	24
400 ml + 100gr	24

EXPRESS PU MARINE ADHESIVE

APPLICATION

Fixing and bonding wooden elements to other various porous and non-porous materials such as wood, metal, concrete, polystyrene foam and plastics. Used in furniture and boat production. Most bonding applications that require high water resistance.

PROPERTIES

Water resistant (D4-DIN EN204)
Excellent bonding strength.
Fast drying.
Easy application, low viscosity.
Can be used on slightly humid surfaces.
Resistant to temperature extremes and moisture.
Non shrinking.

Volume	Package
500 ml	12

PU LIQUID NAILS

APPLICATION

The application surface must be solid, clean, dry and free of dust, oil and grease. Apply SMARTFIXPU liquid Nail on one side with a caulking gun or spread on the surface with a spatula. Clamp the glued parts with a vice for at least 30 mins. To achieve optimum performance it is important to have a very thin layer of PU Liquid Nail between the substrates.

Volume	Package
310 ml	24

PROPERTIES

One-part, moisture curing polyurethane construction adhesive. Suitable for structural bonding in wood-working, building & construction and carpentry. Its technical characteristics, allow fast bonding of several construction substrates, such as: wood, plastic materials, metals, concrete, natural stones, ceramics, bricks, concrete and tiles.

MULTIPURPOSE SILICONE SEALANT

APPLICATION

Sealing and glazing applications.
Sealing in DIY(Do It Yourself) applications.
Sealing connection and expansion joints.
Sealing electrical sockets and switches.

PROPERTIES

Stays permanently elastic after drying.
Acetoxy curing system.
Antibacterial.
Very good adhesion on most surfaces.
Resistant to aging, cracking and discolorization.
Typical acetic smell during curing.

Volume	Package
280 ml	25
310 ml	25

KITCHEN & BATHROOM SILICONE

APPLICATION

Sealing applications in kitchens, bathtubs, sinks, shower cubicles and making joints in humid environments. Sealing applications in cold storage rooms containers and air conditioning systems. Sealing sanitary technical and kitchen appliances.

PROPERTIES

Fast curing. Perfect adhesion to most non-porous substrates.
100% silicone. Permanently elasticity.
Acetoxy curing system. Does not shrink.
• Resistance to aging, cracking and discolorization.
Acetoxy curing system. Does not shrink.
Resistance to aging, cracking and discolorization.
